**Extended Warranty Program For Stirrups - US Only**

Keep your stirrups functioning like new for four full years. Purchase the Extended Warranty and Allen® Medical will extend the original warranty for an additional two years (four years total) for stirrup hardware. This program ensures that the stirrup functions properly for four years from the date of purchase. Boot pads are not covered by Extended Warranty programs.

See page 139 for more information on Allen Medical System’s Warranty Program.
Clamshell Pad Shown

Flexible Boot

Patient Weight Capacity: 800 lbs (363 kg)

Ultrafins® Stirrups
Supports up to 800 lbs (363 kg)

Clamshell Pad Shown
Ultrafins® Stirrups #O-UFAS

Easily Accommodates Patients With Larger Calves. 800 lbs (363 kg) Patient Weight Capacity.

The Ultrafins Stirrup is an upgrade of the Yellofins® Stirrup. The reinforced rod and joint assembly and the flexible boot make the system capable of positioning a patient weighing up to 800 lbs (363 kg). Though designed for large patients, the Ultrafins Stirrup is still appropriate for use with the general patient population.

- **Patient Weight Capacity: 800 lbs (363 kg)**: Support lithotomy positioning for very large patients
- **Flexible Boot**: Boot comfortably conforms to the calf shape of the patient while providing support
  - The shape and design of the back of boot helps reduce pressure under the popliteal fossa
  - Flexible boot allows these stirrups to be standardized throughout the facility
- **Fin Design**: Covers the fibula head and helps to protect superficial peroneal nerve
- **Floating Boot**: Self-adjusting boot minimizes pressure on the calf when moving the stirrup
- **Lift-Assist™ Technology**: Allows easy movement of the leg when placing it in the desired position
- **Ultrafins Clamshell Pad**: Completely encapsulates the foot, ankle and calf for comfortable and secure positioning
- **Squeeze Grip Handle**: Provides easy intraoperative adjustment without compromising the sterile field. Simply release the handle to secure the leg holder in all directions.
- **Lithotomy Range**: Set the stirrup in any position between +84° to –33° lithotomy
- **Abduction Range**: Set the stirrup in any position between +25° to –9° abduction
- **Lithotomy & Length Indicators**: Help ensure precise positioning

Raise & Abduct

Squeeze & Position
Yellofins® Stirrups

Simultaneous Lithotomy And Abduction

The Yellofins Stirrup represents the gold standard in lithotomy positioning. Yellofins Stirrups allow for easy adjustment of abduction and lithotomy while maintaining the sterile field. The boot is extended along its lateral side (referred to as a "lateral fin") and is padded on the interior. The purpose of this fin is to cover and protect the head of the fibula and the peroneal nerve. The Yellofins Stirrup enables safe and easy positioning while providing enhanced surgical site access.

- **Boot Design:** Extended lateral fin is designed to cover and protect the head of the fibula and the peroneal nerve
- **Floating Boot:** Self-adjusting boot minimizes pressure on the calf when moving the stirrup
- **Lift-Assist™ Technology:** Allows easy movement of the leg when placing it in the desired position
- **Yellofins Reusable Pad:** Completely encapsulates the foot, ankle and calf for comfortable and secure positioning
- **Squeeze Grip Handle:** Provides easy intraoperative adjustment without compromising the sterile field. Simply release the handle to secure the leg holder in all directions
- **Lithotomy Range:** Yellofins and Yellofins Elite with Lift-Assist technology – Set the stirrup in any position between +84° to –33° lithotomy. Yellofins without Lift-Assist technology – Set the stirrup in any position between +90° to –35° lithotomy.
- **Abduction Range:** Set the stirrup in any position between +25° to –9° abduction
- **Lithotomy & Length Indicators:** Visual indicators that help ensure precise positioning

PAL Pro® Stirrups
Supports up to 350 lbs (159 kg)
PAL Pro® Stirrups #A-10052

The Power Of Safety And Control At Your Fingertips

The PAL Pro Stirrup is the most feature-rich Allen® stirrup utilizing a standard boot. The stirrup allows for easy adjustment of abduction and lithotomy while maintaining the sterile field. The PAL Pro stirrup is differentiated from the Yellofins® Stirrup by boot design, mechanism cover, the type of hand control and lithotomy indicator.

- **Floating Boot**: Self-adjusting standard boot minimizes pressure on the calf when moving the stirrup
- **Lift-Assist™ Technology**: Allows easy movement of the leg when placing it in the desired position
- **Handle**: Provides easy intraoperative adjustment without compromising the sterile field. Simply release the handle to secure the leg holder in all directions.
- **Lithotomy Range**: Set the stirrup in any position between +90° to −22° lithotomy
- **Abduction Range**: Set the stirrup in any position between +25° to −9° abduction
- **Lithotomy & Length Indicators**: Visual indicators help ensure precise positioning
- **Mechanism Cover**: Easy to clean the stirrup between cases
- **Patient Weight Capacity**: 350 lbs (159 kg)

Junior PAL® Stirrups
Patients ages 7-11 years old
Supports up to 250 lbs (113 kg)
Junior PAL® & Little PAL® Pediatric Stirrups

Effective, Natural Design Fits Pediatric Anatomy

Easy to use, comfortable and secure leg positioning for pediatric patients. Simultaneous abduction and lithotomy adjustments are easily made via a single handle while maintaining the sterile field. Boot is adjusted with a single clamp making positioning simple.

- **Pediatric Boot Design:** Special boot design to fit pediatric anatomy and cradles the pediatric calf, ankle and heel in a natural position
- **Floating Boot:** Self-adjusting standard boot minimizes pressure on the calf when moving the stirrup
- **Reusable Clamshell Pad:** Completely encapsulates the foot, ankle and calf to help protect, cushion and reduce pressure on these areas
- **Visual Indicators:** Help to ensure precise positioning
- **Lithotomy Range:** Set the stirrup in any position between +90° to –35° lithotomy
- **Abduction Range:** Set the stirrup in any position between +25° to –9° abduction

Waterproof Disposable Cover
Allen® Hug-U-Vac® Steep Trend Positioners

Ideal For Use With Robotic Procedures

The Allen Hug-U-Vac Steep Trend Positioners safely and comfortably hold patients in the steep Trendelenburg which is common in robotic procedures. The Allen Hug-U-Vac Positioner's unique pliable design enables it to conform to the patient’s entire supine anatomy to create a larger surface area to cradle the body during steep Trendelenburg. The Hug-U-Vac Positioners have integral quick-release straps that enable it to attach tightly to the rails of standard OR tables. The Large Hug-U-Vac Steep Trend Positioner has been designed with three chambers to accommodate larger patients.

Ideal for use with Gynecology Procedures, Urology Procedures, Robotic Surgical Procedures, Colorectal Procedures, Cholecystectomies.

- No continuous suction required
- Patient weight capacity: 500 lbs (227 kg)
- Enables secure positioning in robotic procedures
- Designed for easy forearm access to IV lines
- Integral straps secure to standard OR table rails
- Valve location designed for quick access to anesthesia
- Lightweight for easy transport, set-up, and storage
- Durable vacuum valve with on/off switch and lock
- Disposable slipcovers are waterproof for easy clean-up

#A-60010 Steep Trend Positioners Package

All-In-One System

Easy On, Easy Off

Flexible Band For Increased Site Access

Fully Disposable
Easy Catcher® Disposable System

#O-EC51, #O-EC52

Easy To Use & Fully Disposable Single Use System

The Allen® Easy Catcher is designed to catch and drain fluid during a surgical procedure. It attaches to the side rails of a standard OR table via two integral rail clamps. The Easy Catcher is a single-piece system that contains a fluid drain drape with an integral flexible support band. The band supports the drape vertically for optimal drainage. The support band also flexes to accommodate the doctor’s mid-section during procedures. The all-in-one system is fully disposable making it more convenient and quicker to set-up and dispose of.

• All-in-one fluid containment system
• Saves clean-up time
• Fully disposable
• Flexible integrated band
• Easy set-up and removal
• Integral clamps for easy set-up
• Single-piece system includes: buttocks flap, mesh trap, collapsible hose and removable tube adaptor

• Maximize infection control with disposable system
• Attaches to the rails of a standard OR table
• Eliminates the need to clean system band for repeated use
• No more lost or damaged bands
• Removable tube adaptor connects to a variety of fluid waste management systems

Ideal for use with a variety of urology and gynecology procedures including Cystoscopy, Ureteroscopy, Urologic Oncology, Pediatric Urology, Calculi (urinary tract stones) and Neurourology.

Uro Catcher Drapes #O-UC31, #O-UC32

Open mesh filter allows for fast drainage of fluids. The flexible drain hose is compatible with most suction systems for accurate fluid measurement and metering. Velcro® securement eliminates the need to use tape. Durable drape has flexible hose. Length of tubing is 64” (162.5 cm) extended, 20” (50.8 cm) compressed. Tubing diameter is .875” (2.2 cm).

- #O-UC31 Sterile Drape (Sold In Case Of 10)
- #O-UC32 Non-Sterile Drape (Sold In Case Of 10)

Brachytherapy Drapes for Uro Catcher System

#A-50008

Our ultra-fine mesh trap is designed to catch even very small particles while allowing fluid to drain through. The flexible drain hose is compatible with all suction systems for accurate fluid measurement and metering. Velcro securement eliminates the need to use tape. Durable drape has flexible hose. Length of tubing is 64” (162.5 cm) extended, 20” (50.8 cm) compressed. Tubing diameter is .875” (2.2 cm).

#A-50008 Sterile Drape (Sold In Cases Of 10)
Four independently adjustable hooks each safely support up to 10,000cc of fluid. Comfortable, quick-release knobs permit vertical adjustment of hangers from 5.5' to 8.5' (1.67 m to 2.59 m). This nurse-friendly design makes it easy for personnel to operate.

- **Stable**: Our tower doesn’t require sandbags or special weights to stay up
- **Nearly Effortless**: Lift-Assist technology makes vertical adjustment easy
- **Simple**: Spring design
  NO complicated hydraulics to fail
  NO battery to remember to charge
- **High Capacity**: Holds up to 40,000cc
  (10,000cc max capacity per hook)
- **User-Friendly**: Easy-to-reach hangers range from 5.5’ to 8.5’ (1.67 m to 2.59 m)
- **Convenient**: Four independently adjustable hooks
- **Ergonomic**: Comfortable, quick-release knobs

**Lift-Assist Technology**
Unique spring-loaded elliptical knob unlocks when squeezed and locks securely in place when released. The Lift-Assist articulation is done mechanically; there are no hydraulics or batteries to fail.

**Accuracy**
The hanger height is displayed in inches and centimeters for your convenience.
**Table Width Extender 4" (10 cm) #O-TWE**

Increases the support surface for larger patients. Clips easily with integral locking mechanism to the rail. Can be used individually or in multiples to create a custom platform. Support surface measures 4" x 20" (10 cm x 51 cm). Includes side rail for mounting stirrup clamps, armboards and other accessories. Call Sales Dept. for replacement pad info. Patient Weight Capacity: 400 lbs (181 kg).
